Care for Africa is an Australian not for profit charitable organisation.

At the core of the organisation's operations is an emphasis on capacity building to assist communities in breaking their cycle of poverty.

Our programs are community initiated and community centred with capacity building is always at the heart of the implementation.

Programs which operate in our communities are:

WASH To provide safe and accessible drinking water, and improve hygiene and sanitation in communities.

HEALTH To empower communities for sustainable access to health care.

EDUCATION To remove barriers impeding access to education opportunities in communities.

ENTERPRISE To empower girls and women to be change agents.

Our projects include:

WOMEN'S ENTERPRISES Provide adult education programs, skilled workforce and economic development.

BREAKFAST PROGRAM Our Breakfast Program was successfully initiated in 2016, since this date school attendance has seen more than a 100% increase.
